PrintStockWatch® has been published continuously since January 2000 and now has over 800 printing industry executives as subscribers								

The weeks just seem to fly by, no?

The stock market took another "pounding" today dropping **-497** points to close at **24,101**...the Dow (**DJI**) has lost **-5.6%** during just the first two (2) weeks of December. Excuse seems to be "worldwide economic concerns"...

Our PrintStockWatch continues to be "in-the-tank" (**-35.5%** YTD)...**all 8** of the remaining public printing companies are trading at or near their respective **52 week Lows**.

No real news out there in the *Wonderful World of Print*...it is "seasonably" quiet.

Have a great mid-December weekend...enjoy your families and get that **Christmas** shopping done!
